Wastewater Treatment Facilities Improvements

The Holiday Shores Sanitary District is currently making improvements to the wastewater treatment facilities. The improvements include dredging the lagoons and adding aerators to enhance treatment efficiency beyond natural processes. Funding for this project was provided by a low interest loan from the Illinois Environmental Protection Agency from the Water Pollution Control Loan Program (WPCLP). The WPCLP is funded by both state and federal sources. The \$1,770,000.00 loan has an interest rate of 1.62% and will be repaid over 20 years. The lagoon improvements are intended to increase lagoon aeration and reduce sludge accumulation. For more information contact the Holiday Shores Sanitary District.
